Abstract: Hausa is a name of language by which a group of peoples who shared common beliefs and cultures are known in Nigeria. The Hausa population resides mostly in the northern part of Nigeria and southern part of Niger, and they are predominantly Muslims. Whatsapp is a social media platform that is shaping or affecting the lives of African citizens. Today, most people's attitudes, decisions, dress codes, communication skills are in a way affected by whatsapp messaging. They sleep very late and put their body health at risk. In Hausa society, the young ones have been mis using whatsapp social media in such away that affects their moral off-bring trained by their parents. In this view, this article titled "Whatsapp Social Media: Its Negative Impact to the Morality of Young Ones in Hausa Society" attempts to highlight some of the negative effects of mis using whatsapp social media in deteriorating good morality of young ones and Hausa society at large.
